EDUCATION

Bachelor of Science in Computer Science (BSc)

September 2023 - May 2027

University of Victoria, Victoria, Canada.

Relevant coursework: Data Structures & Algorithms, Operating Systems, Software Development Methods, Databases, Networking, Technical Writing.

PROFESSIONAL EXPERIENCE

Programmer Analyst CO-OP

May 2025 - August 2025

Consumer Protection BC, Victoria, Canada

- Developed 4 multi-page Power BI dashboards on transaction and survey data, improving data accessibility and reducing manual reporting time for managers.
- Designed and optimized SQL queries on Microsoft SQL Server to filter and extract post-2020 transaction data, ensuring efficient inputs for reporting pipelines.
- Identified and documented 3 critical defects (7 total issues) during feature testing, providing potential fixes that improved application reliability.
- Collaborated with developers to resolve bugs quickly, contributing to higher-quality releases and streamlined development cycles.

Technology Assistant & Vacation Rental Concierge

June 2024 - September 2024

Amala Vacation Rental Solutions, Victoria, Canada

- Provided technical support for a platform of 1000+ customers, supported online marketing by assisting in website optimization efforts.
- Designed and optimized a mobile-friendly website for a massage therapist, utilizing custom HTML and workflow management tools.
- Gained experience with automation workflows and supported website modifications, including introductory work with WordPress.

PROJECTS

Model for a Medical Clinic System

October 2024 - November 2024

- Developed a Python system for managing clinic records, implemented CRUD operations for patient data and medical notes.
- Created and ran 20+ unit and integration tests using unittest to validate CRUD functionality, data integrity, and system reliability.
- Collaborated in a team using Git, with regular commits, branching, and code review. Prioritized algorithm design, refactoring coding efficiency, and practicing object-oriented principles.

Web Funnel Development

July 2024 - August 2024

- Designed and optimized a responsive website, enhancing user experience on mobile and tablet devices.
- Implemented custom HTML to enhance website functionality and tailor features to client specifications.
- Collaborated directly with client to get requirements, address feedback, and deliver a solution exceeding expectations.
- Automated email campaigns by developing workflows using ClickFunnels, ensuring consistent client engagement and generating 11 new leads.

SKILLS

Technology

- Programming Languages: Java, Python, C, SQL, AVR Assembly, HTML, CSS, R (introductory)
- Tools & Technologies: Git, GitHub, GitHub Co-Pilot, VS Code Power BI, SQL Server Management Studio, Office 365, R Studio, WordPress.

Soft Skills

- Problem-Solving: Broke down complex challenges and implemented efficient solutions, such as optimizing SQL queries to streamline reporting pipelines.
- Attention to Detail: Maintained accuracy in SQL queries, feature testing, and data validation, identifying and documenting seven issues (including three critical defects).
- Communication and Teamwork: Partnered with developers to resolve bugs quickly and collaborated with managers to translate reporting needs into actionable dashboards.
- Technical Writing: Documented reporting processes and defect findings with clear, concise writing while adhering to technical standards.
